1. First steps

Dear Student,

As part of its services, the University Library and Archives (ULA) provides graduating students with the opportunity to check their theses using the Turnitin system. Each semester, ULA creates a dedicated submission space in Turnitin where students can independently upload their papers for similarity checking.

Students will receive the necessary enrollment details for accessing Turnitin through a Neptun message during the semester:

- **Class enrollment key**

If you haven't received the message, please write to turnitin@sze.hu.

Firstly, please go to <https://www.turnitin.com/> and click the “**Log In**” option. (Figure 1)

Figure 1

Please click “**Create a new student profile**” option. (Figure 2)

Figure 2

In the **“Create a New Student Profile”** you need to use the **“Class enrollment key”**. (Figure 3)

Create a new student profile

You'll need a class enrollment key from your instructor to create your profile. Enrollment keys are case-sensitive, so be sure to enter the key exactly as provided. If you don't have a key or are having trouble using it, contact your instructor.

Next section is **“Password and Security”**. First you need to create your own password **“Enter your password”**. Password must be at least 12 characters and you need to use big and small letters, at least one special character, and numbers, as well. After you need to confirm the password **“Confirm your password”**. Next step is the **“Secret question”** (you can select from the drop-down list), and the **“Question answer”**. You will get this question when you use the **“Forgot your password”** option. (Figure 5)

Finally - after the upload - at least within 48 hours (depending on the load on the Turnitin servers) Similarity Report can be generated. (You will see a percentual chart. The obtained score cannot be interpreted on its own; it requires further evaluation by the supervisor(s) to determine what qualifies as plagiarism and what does not. (Figure 13)

With the „Resubmit” button you can upload your paper limitless again and again. On the other hand, it has to be clear: **After each third resubmissions, you will need to wait 24 hours to see a new Similarity Report.** (Figure 14)

You have already submitted a paper to this assignment and a Similarity Report was generated for your submission. If you choose to resubmit your paper, your earlier submission will be replaced and a new report will be generated. After 3 resubmissions, you will need to wait 24 hours after a resubmission to see a new Similarity Report.

2.2. How to use the Feedback Studio?

Click the % percentual value and you can enter the **Feedback Studio**. This section displays the details of the evaluation and serves as the platform for the supervisor’s in-depth analysis. The final Turnitin plagiarism report highlights text segments that match other sources using color coding and provides links to the original references.

After opening Feedback Studio, enable the “Sources” option to see a list of sources that appear as matches (Figure 15).
